

AVT1

WIRELESS WEATHERPROOF GPS TRACKING DEVICE

The AVT1 is a compact 4G GPS tracking device with a variety of inputs and outputs to cater for the most demanding applications. The 4G modem allows for operation on both Cat-M1 and NB-IoT networks. Its rugged housing is IP67 rated to withstand the harshest environments, without sacrificing tracking and communications performance. With the internal GPS and cellular antennas, installation is a breeze. The internal backup battery provides alerts and tracking operations even when external power is removed.

- *Wireless with up to 7 years battery life*
- *IP67 Weatherproof*
- *Rugged ABS/Polycarbonate Construction*

INCLUDED IN THE BOX

AVT1

WIRELESS WEATHERPROOF GPS TRACKING DEVICE

SPECIFICATIONS

Network

- Network Type: 4G LTE
- Cellular Antenna: Internal
- APN: Auto APN details preloaded

GPS

- GPS Antenna: Internal
- GPS Tracking: High Sensitivity with 72CH GLONASS
- GPS Amplifier: Low Noise GPS Signal Booster (LNA)

Smart Technology

- Accident Detect: Built in accelerometer detects high G-force impact in accidents or rollovers and reports the event to the server for emergency alerting.
 - Remote setup of the APN server and other details via TXT
- TXT Setup: Capacity to remotely set & store hundreds of geo-fencing:
 - No Go & Keep out areas
 - Arrival & Departure alerts
 - Automatic Output Controls. e.g. switch on hazard lights
 - Speeding Zones with Audible Alert
- Recovery Mode: Can be remotely switched to live tracking and reporting mode
- Adaptive Tracking: Can be set to use accelerometer and GPS data to intelligently sense if the vehicle is moving and send updates.
- Data Security: Includes bank-level AES-256 authentication & data encryption
- Battery Status: Battery level monitoring

Backup

- Off Line: Assist Now Offline data aid & extremely fast performance
- Memory: Internal with over 25,000 records while off line. Up to 14 days of memory storage.

Power

- Battery Type: 3 x AA 1.5V Lithium
- Battery Life: Up to 7 years with once daily update
Up to 1 year with once hourly update

General

- Operating Temperature: -20° to +60°C
- Dimensions: 138L x 72W x 30H mm
